

Dear Cyndi,

It was a pleasure speaking with you and I look forward to working with you, your program and students. As the "West Region" Campus Relations Manager for RehabCare, I would like to provide myself as a resource to you and your students for both Clinical Affiliation and possible employment opportunities upon graduation. To provide you with more information about RehabCare I would like to share some of the great opportunities we have for you and your students. In the packet I have included all of the following:

- A list of **Clinical Education Sites**- These sites have agreed to accept multiple students each year and have met the RehabCare requirements for a CES site. Please note that we have many other sites in a variety of locations. If you are interested in an area or facility that is not on this list, please contact me and we can hopefully make it work.
- **Teamwork/Opportunity U Brochures** -This is a comprehensive brochure of what RehabCare can offer as an employer to you or your students as well as the tuition assistance/reimbursement program.
- Table of Contents of the **CES Clinical Instructor Handbook and Student Handbook**. This is a brief summary of the handbooks we provide to both the CI and student. If you would like to see the document in full, please let me know and I would be more than happy to send it to you.
- **Mentorship Program "AIM"**- Included you will find an overview of our mentorship program that we have in place for all New Grads who accept full-time employment with RehabCare after graduation.
- **Clinical Affiliation Survey**- A copy of the Post Affiliation Survey that we send out to all students that complete affiliations in our sites. As we are always striving to better our student programs, this survey helps us learn information about our programs and the education that students are receiving there.
- **Student Resource Guide**- This guide is a pocket resource of various tests a therapist may need to perform an effective and efficient evaluation or interpret a test seen on an evaluation. It is based on the practice guidelines set forth for therapists.
- Visit our new **Student Blog**- <http://college.rehabcare.com>

Thank you for taking the time to review these documents. I would also like to invite you to view the RehabCare website as it provides very valuable information about our company and programs, www.rehabcare.com. Please feel free to contact me with any questions that you may have at this time.

Sincerely,

Lauren Brody
Manager- Campus Relations "West Region"

Section 1

Introduction

Mentoring Definitions

Mentee – The protégé or lesser experienced employee who desires to be coached by a more experienced member of the organization.

Mentor – The individual selected to coach and develop a lesser experienced member of the organization.

Mentoring – A flexible concept that should reflect the unique culture and objectives of the organization.

Coaching vs. Mentoring

Coaching	Mentoring
▪ Something which managers must do for all their staff, as required part of job ▪ Takes place within confines of the formal line manager – employee relationship ▪ Is job-focused: focuses on developing the individual within their current job ▪ Interest is functional - arising out of the need to ensure that the individual can perform the tasks required of them to the best of their ability ▪ Relationship tends to be initiated and driven by the individual's manager ▪ Relationship is finite – ends as individuals move on to work in other jobs under other line managers	▪ Formally, the mentee's manager is not the mentor ▪ Takes place outside line manager relationship ▪ Is focused on professional development that may be outside of mentee's area of work ▪ Interest of the mentor is personal in that the focus is on the mentee to provide support both professionally and personally ▪ Relationship may be initiated by mentor and/or matched by the organization ▪ Relationship crosses job boundaries ▪ Informally, managers may choose to do for specific, selected employees

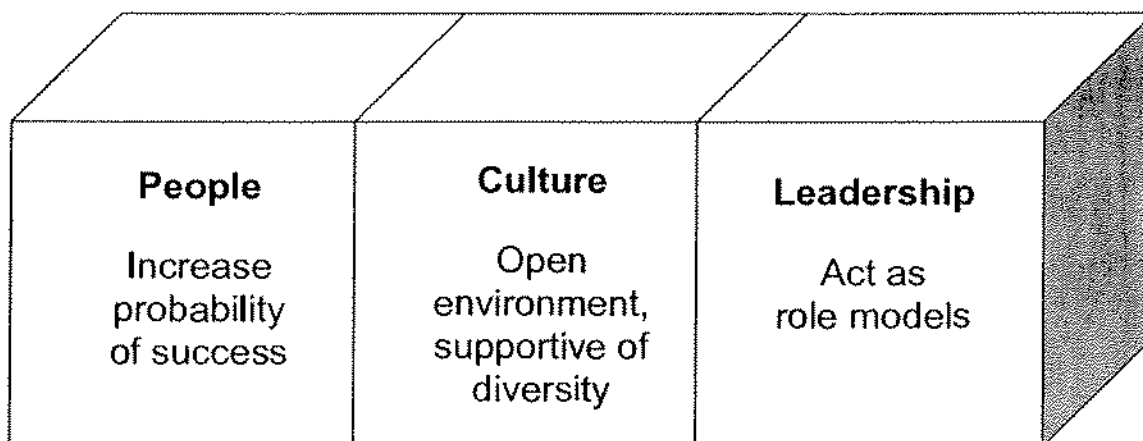

Many departments and divisions have an informal mentoring system in place. The following chart outlines the difference between the informal and formal mentoring programs.

Informal Mentoring vs. Formal Mentoring

Informal Mentoring	Formal Mentoring
▪ Goals unspecified ▪ Outcomes unknown ▪ Access limited and may unintentionally exclude ▪ Mentee/mentors self-selected based on chemistry ▪ Mentoring lasts a long time ▪ No or limited training/support ▪ Organization benefits indirectly	▪ Goals established ▪ Outcomes measured ▪ Access open to all who qualify ▪ Mentees/mentors paired based on compatibility ▪ Training and support provided ▪ Mentoring time limited (9-12 months) ▪ Organization benefits directly

Organizational Goals

There are three (3) main organizational goals for this program:

Statement of Purpose

To develop a mentoring program that supports the goal of developing the depth, breadth, and diversity of leadership talent at every level of the organization by:

- Developing relationships that will help the mentee develop the skills, understand and information to further enhance his/her own effectiveness.
- Providing an opportunity for career development and networks within the organization.
- Offering a venue for senior managers to share their learning with less experienced managers.
- Encouraging mentees to take ownership for their personal and professional development.
- Providing mentees with a broader perspective and greater organizational insight.
- Providing mentors with greater organizational insight, understanding of career development challenges at all levels and additional opportunities to hone coaching and feedback skills.

Principles of the Mentoring Program

1. Mentors, chosen from leaders in the organization, act as role models, counselors and coaches in a confidential and non-judgmental manner for the benefit of the mentee.
2. The mentee is responsible for defining the relationship and ensuring clear expectations are set by both individuals.
3. The mentoring relationship is in addition to, rather than instead of, the effective coaching, development and performance enhancement we expect from all managers in the organization.
4. The mentoring relationship is not intended to replace the formal assessment or career development systems in the organization.
5. Mentee and mentor pools are at least one (1) organizational level apart.

Clinical Affiliation Survey

Student Name: _____
Address: _____
Phone/Cell Phone: _____
Email Address: _____
Academic Institution/School: _____
Name of Clinical Education Site _____
Name of CI (s) _____
Affiliation Level (circle one): 1 2 3
Clinical Affiliation Dates _____
Graduation Month/Year: _____

Clinical Site/Environment

Please rate the following statements regarding the clinical site using the scale below.

1= Poor 2= Fair 3= Good 4=Excellent.

- _____ 1. The clinical site was clean and tidy.
- _____ 2. The gym space/treat areas were conducive to providing quality care.
- _____ 3. The clinical site/staff members were welcoming and provided a good learning environment.
- _____ 4. The equipment and technology was updated appropriately and available to you. The staff provided adequate orientation to the equipment.
- _____ 5. The appearance of the building, staff and patients was acceptable.
- _____ 6. Staff members were sensitive to individual differences. (i.e., race, age, ethnicity)
- _____ 7. Staff members demonstrated high morale and good working relationships.
- _____ 8. Staff members were helpful and supportive of your role as a student.
- _____ 9. Staff members demonstrated professional and ethical behavior including patient rights and legal codes (including HIPPA)
- _____ 10. Staff members used clinical evidence to support clinical practice.

Comments/Concerns regarding clinical site/environment

Clinical Instructor (CI)

Please rate the following statements regarding your CI using the scale below.

1= Agree 2= Uncertain 3= Disagree

Your CI:

- _____ 1. Was familiar with your school's objectives and expectations for the level of clinical experience.
- _____ 2. Provided constructive and timely feedback.
- _____ 3. Was an active listener.
- _____ 4. Provided clear, consistent and constructive communication regarding your skills and performance.
- _____ 5. Was clear in describing your responsibilities and accountability.
- _____ 6. Provided appropriate tasks and responsibilities that were in the scope of the your experience level.
- _____ 7. Was easily accessible.
- _____ 8. Encouraged you to self-assess and ask questions.
- _____ 9. Was confident in his/her skills and integrated various learning styles into clinical teaching.

Concerns/Comments regarding your clinical instructor

Overall Experience

Please rate your overall experience in the following areas.

1= Poor 2= Fair 3= Good 4= Excellent

- _____ 1. Orientation to facility, safety procedures, health regulations.
- _____ 2. Staff members.
- _____ 4. Varied patient caseload and diagnoses.
- _____ 5. CI and student match-up.
- _____ 6. Exposure to various aspects of PT role.
- _____ 7. Integration of health care professionals. (nurse, physician, etc.) in patient care.
- _____ 8. Interdisciplinary team approach (PT, OT, SLP, nursing, social services, psychology, physician, patient & family).
- _____ 9. Integration of continuum of care (outpatient, acute care, skilled nursing, home health) and family education.
- _____ 10. Overall learning experience.

Would you recommend this clinical experience to another therapy student? Why or why not?

Please give suggestions as to how we can improve this clinical experience for future therapy students.

Thank you for choosing RehabCare as one of your Clinical Education Sites. We hope that you had a positive clinical experience. Good luck with the rest of your academic and clinical experiences. We will be in touch soon!
