Office Hours

- My office hours will be before class on Mondays and Wednesdays, from 12:00 to 1:00. You can also email me to set up an appointment at another time.
- Shuwen Lou will also hold office hours. She will let you know when.
- The math study center is a good place to get homework help.

Course Web Sites

- My website, with information specific to our section:
<http://math.washington.edu/~grigg/math125/>
- Department website, where you can download past quizzes and exams and view other helpful information: <http://math.washington.edu/~m125/>. Note that this website is designed for a 10-week quarter, so **we will not always be using the homework assignments posted here.**

Textbook

- Calculus, James Stewart (custom 6th edition, volume 1, ISBN 978-0-495-65469-8)
- If you will use a different edition, talk to me about getting access to the homework problems.

Homework

Homework is due every week, starting the second week of class. Homework assignments and due dates will be posted on my website. Please write neatly and show your work. It is often helpful to work with others on your homework, but you should write up and turn in your own work. Late homework is not accepted.

Worksheets

Most Thursdays, you will work on worksheets in groups. You must attend class and bring a blank worksheet with you in order to receive credit for these. There are no make ups.

Quizzes

You will have a quiz on some Tuesdays. You will have about 25 minutes to complete each quiz. You may not use notes on the quizzes. You might need a calculator. There are no make ups.

Exams

There will be a midterm exam on **July 23** and a final exam on **August 20 and 21**. You may bring one letter-size handwritten sheet of notes (writing allowed on both sides). You will need a scientific calculator, but graphing calculators are not allowed. **Bring your Student ID to both exams.**
