WRITE Program Mission

The WRITE Program is a clinical medical education program developed by the University of Washington School of Medicine as a means to help meet the need for rural primary care physicians in the WWAMI region. The success of this unique program is due to the integration of community involvement, continuity of experience, and a proven curriculum.

WRITE Program Overview

The WRITE Program is a 20-week rural clinical medical training experience for a pre-selected group of third-year medical students. During the student's third year and prior to embarking on the WRITE experience, they will complete:

- 8 weeks of Inpatient Internal Medicine;
- 6 weeks of Surgery;
- 6 weeks of OB/GYN;
- 3 weeks of Psychiatry/Behavioral Sciences;
- 3 weeks of Pediatrics.

Following the required WRITE Orientation which is held in Seattle just prior to the start of the on-site portion of the program, students will report to their selected site where they must complete, by mid-June, their remaining 20 weeks of third-year requirements, including:

- 6 weeks of Family Medicine;
- 4 weeks of Outpatient Internal Medicine;
- 3 weeks of Psychiatry/Behavioral Sciences;
- 3 weeks of Pediatrics;
- 4 weeks of an elective experience in Family Medicine;
- A Community Service Project;
- An exit interview with the Vice Dean of Academic Affairs, UWSOM and WRITE Co-Chair, upon the student's return to Seattle

Following the WRITE site experience, students are ready to begin their fourth year and complete their remaining clinical requirements.

WRITE Student Criteria & Application

Criteria

The criteria for selection to the WRITE Program are based on background, interest, motivation and the following:

- The III (Independent Investigational Inquiry) Petition must be submitted and approved;
- Strong academic achievement during the first and second years;
- The passing of Step 1 of the USMLE Exam;
- A career interest in rural primary care;
- A strong personal statement;
- Participation in the R/UOP or equivalent program **is desirable**.

Application

Qualified students may apply for the WRITE Program during the fall of their second year. The WRITE Student Application Form is available online at:

<http://depts.washington.edu/write/forms/WRITE-Student-Application-Form.pdf>

Application forms are also available in the UW School of Medicine Academic Affairs Office and for additional application information you can contact either the WWAMI Regional Offices or the WRITE Co-Chair's Office at (206) 543-5563.

Visit the WRITE site for information on all WRITE Programs within the WWAMI Regions.
