Checklist for Giving the CGI Assessment

Prepare before…

☐ Copies of assessments
☐ Pre-counted objects for counting task (K-1) such as tiles or cubes
☐ Tools such as hundreds charts, unifix cubes or counters
☐ Pens

During the interview…

☐ Ask probing questions to elicit student thinking
☐ Avoid guiding students toward an answer or strategy
☐ Take notes on what students say and document their use of tools
☐ Look for what strategy the student uses
☐ Make note of any counting errors a student makes

After the interview…

☐ Code student work for accuracy and strategy use, using the printable codebooks or strategies pages on the website for more detail
☐ Enter student information and codes into google form
