

Student News

Select Medical Outpatient Division

Fall 2008

Teamwork for Better Student Experiences

Welcome to the first issue of *Select Student News*. The purpose of this publication is to improve communication with the student programs at colleges and universities in which we provide clinical affiliation opportunities.

Our Mission

Our mission is to help each student grow by bringing the classroom and the clinic together, developing patient management skills, incorporating business components, facilitating team interaction and teaching time management skills.

Contract Process

If you have entered into an agreement with any Select Medical outpatient physical therapy location since April 2008, that agreement is valid for all of Select Medical Outpatient Division centers. For example: If a student did a clinical rotation at a NovaCare Rehabilitation center, and then another student is placed at a Select Physical Therapy clinic, a new contract is not necessary. The language in the contract is worded to include all NovaCare Rehabilitation, Select Physical Therapy, Kessler Rehabilitation Center and KORT locations.

Who to Contact?

To check the status of a contract or to set up a new affiliation, please contact the center where you would like to place a student. The center will make the necessary connections and complete the required paperwork to generate a contract. To access a listing of our centers, please visit the Center Locator available on any of our websites:

- www.novacare.com
- www.selectphysicaltherapy.com
- www.kessler-rehab.com/outpatient

If you have general questions or concerns, please contact:

Wendy Mathewson, PT, ATC
